

SUPERSPOTTER (SSP4)

The Almex SuperSpotter (4th Generation) is a superior vulcanizing presses for heavy weight rubber belt maintenance. This field-portable press is ideal for repairing small tears and punctures. The SSP model is a 'one-man' repair press, allowing one person to carry the press to the repair location, assemble the vulcanizer, and effect the repair. The ease of transport and operation means a very fast cycle to minimize conveyor downtime.

FEATURES:

- Signature Shaw Almex "Pressure Bag" uniform pressure system
- Custom "Extruded Plank" fast cooking system within platens
- Durable silicon heating element
- Lightweight and portable structure
- Suitable for repairs to both fabric and steel cord belts up to 2000mm (78") wide Maximum pressure of 75 psi (5 kg/cm²)

Custom configurations are available to meet your needs.

COMPONENT	DESCRIPTION
PLATENS	<ul style="list-style-type: none"> • Utilizes innovative Almex flexible platen constructed from extruded plank, silicone heating element and durable composite insulation • Each platen contours to belt irregularities, ensuring uniform results. Maximum temperature 163 °C (325 °F) • Available platen size: 300 mm x 300 mm (12" x 12")
FRAME	<ul style="list-style-type: none"> • Welded aluminum C-Frame with handle for easy, one man handling • Two sizes are available for use on belt widths up to 1500 mm (60") and 2000 mm (78") • Complete with platen carrying case.
CONTROL PANEL	<ul style="list-style-type: none"> • Thermostatic control panel pre-set with dual voltage standard. Also available with remote and CE approved controls.
PRESSURE/COOLING	<ul style="list-style-type: none"> • Almex pressure bag ensures uniform pressure across splice surface. Maximum operating pressure 5 kg/cm² or 75 psi
